

OFSTED PARENT VIEW QUESTIONNAIRE RESULTS

YEAR 11 PARENTS EVENING, MARCH 2017 (48 RESPONSES IN TOTAL)

Additional Comments:

- Good support for pupils. Thank you for your input and support. Great teaching staff and House/Year support. Approachable and fair in all things related to curricular and extra-curricular.
- Some very good teachers. Some not so good. Constant change of staff must be hard for school too - appreciate how it has been recognised and managed.
- Had no bullying issues at school so do not know how it is dealt with.
- Love the communication, texts and emails. Big thumbs up!
- Push them more to mandatory after-school revision sessions.
- It's great to see more consideration to the mental health needs of pupils.
- Any concerns raised have been dealt with promptly and efficiently. We appreciate all the care given by all teaching staff and Head of House. Thank you.
- Some issues this year with science where top set were taught by a newly qualified teacher, who I feel didn't have enough experience for this class. [My son] told on many occasions that his questions wouldn't be answered and he would have to look the answer up himself. Self-directed learning not ideal at age 16. Problem resolved now, but classes and curriculum having to be caught up which again isn't ideal at this stage of their education.
